Publication No. US20050042599A1

GENERAL INFORMATION:

APPLICANT: Impact Diagnostics
APPLICANT: Hu, Yao Xiong
TITLE OF INVENTION: Immunological Methodology for Discerning Human Papillomavirus
TITLE OF INVENTION: Contemplating Peptides From the E7 Early Coding Region of HPV

FILE REFERENCE: 3352-2-1-3
                                                                                                                                                                                                                                                                                   Sequence 7, Application US/10827007 Publication No. US20050042599A1
